^{*}Pregnant woman is counted as one + the number of Infants expected when determining income eligibility for the Total Economic Unit

Ways to Calculate Total Annual Income Use past month (30 days) check stubs for income verification

YTD:

Gross Income: Most recent IRS 1040 (Net Income for Farm and Self-Employed workers)

Weekly x 52 weeks

2 Checks per month 1 pay stub x 24

No Income: Review "No Income" questions to determine if part of another family. If not, record \$0 annual income. Record Self Declared/Verification.

Every 2 weeks x 26 weeks

Monthly x 12 months

Adjunct Eligibility (Medicaid, Food Stamps or FIP): Verify current eligibility. Then client can self declare income.

Divided by # weeks paid x 52 weeks

Sudden Change in Income:

Today's Income x 52 weeks

Remember! You can use 1040 tax with W-2 forms until the next one is filed for documentation.
